

Digital Media – Adobe Creative Cloud Express

Video pt 2

Adobe Creative Cloud Express is a suite of tools for building branded graphics and videos within a simple and intuitive online platform. In this activity we are going to focus on *Adobe Creative Cloud Express Video* which includes access to free-to-use images, music and styling options.

Users do not need to have any audio-visual or multi-media experience to be able to create lively and engaging media, which is stored in the Adobe cloud, easily shared with others or downloaded as an MP4.

📺 Watch **Pancake Day Pt2** <https://youtu.be/xEEB-TxLwgE>

📺 Click on the **Projects** tab

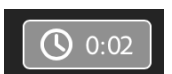

📺 Then find and click on your video to continue editing

📺 Click on the slide(s) you want to give a voiceover (VO) to

📺 Click and hold on the blue mic icon to record

📺 The duration of the slide will automatically adjust to your VO length

📺 To re-record a VO, just repeat the steps above or to delete your VO click

📺 If you return to the Home page your video will be automatically saved in Projects where you can continue to edit or share or download as an MP4
