

# Digital Media – Adobe Creative Cloud Express

## Video pt1

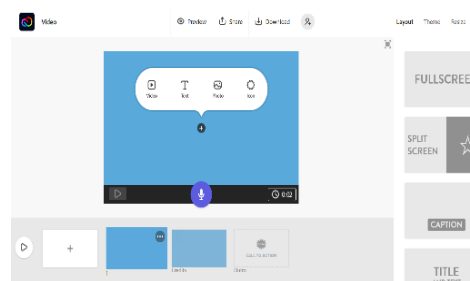

*Adobe Creative Cloud Express* is a suite of tools for building branded graphics and videos within a simple and intuitive online platform. In this activity we are going to focus on *Adobe Creative Cloud Express Video* which includes access to free-to-use images, music and styling options.

Users do not need to have any audio-visual or multi-media experience to be able to create lively and engaging media, which is stored in the Adobe cloud, easily shared with others or downloaded as an MP4.

 Watch **Pancake Day Pt1** <https://youtu.be/Uxj9pIEH98E>

Click on  and choose **Video**  
On the next screen click **Skip**, then **Start from scratch**

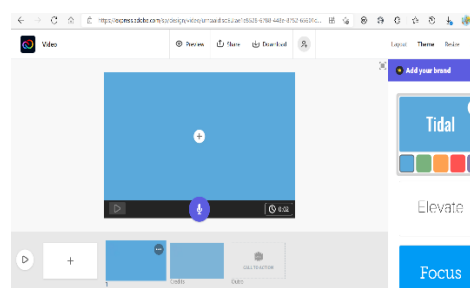

Use the 4 Layout options on the right to decide the format of your slides

Click  to select photos or icons and use the search bar in top right to find suitable ones. You may also be prompted to add text.

 Use  at bottom left to add more slides

 Change the duration of your slides using the timer at bottom right

Use the **Themes** tab to add style to your slides

Use the **Music** tab to choose your soundtrack

 On completion of the above steps, click  **Video** in the top left to return Home: your work will be saved automatically in Projects
