Advanced Searching on SOLO

Subject searching

When doing a comprehensive literature review, you can use SOLO to locate critical and primary source materials published in book format, even if you don't know the author or title or if the book is in a foreign language.

SOLO allows you to limit your searches to subjects. This kind of subject searching can often give you more focussed results than free text searching alone. For this task you will be using SOLO which uses subject headings devised by the Library of Congress. (tip – these use U.S. spellings!).

Refine your search

You can refine your searches using subjects as well as authors and publication dates and limit results to specific libraries or types of material.

Go to SOLO <u>http://solo.bodleian.ox.ac.uk</u> and sign in with your SSO login.
 Click on *ADVANCED SEARCH*

1) Searching for a subject

Search for material on the subject of women and popular culture:

- Change Search Scope from Search Everything to Oxford libraries
- Change Any Field to Subject
- Type *popular culture women* into search box, and click **SEARCH**

Search Scope: Oxford Collections •
Subject • contains • popular culture women

Topic 🔨	
Popular culture	(192)
Women in popular culture	(146)
Women	(111)
SOCIAL SCIENCE	(87)
Sex-Role	(<i>59</i>)
POLITICAL SCIENCE	(57)
Feminism	(50)

✓ You can refine your search using **Topic** in the column on the left. You can limit your search results to the topic of *Women in popular culture,* then refine further to *Women in popular culture – United States.*

Alternatively choose a record of any relevant print copy and look at **Details** & Links. Click on a link under **Subjects** to carry out new subject searches (note – this will create a new search, not a limit on your existing search results).
